### Making it real: 3D printing available @ Library

Are you interested in learning about 3D printing? The library is proud to announce patrons now have access to a 3D printer thanks to a generous donation made by Quality Lime Company.

Learn the basics of 3D printing by signing up for one of our Basic 3D printing classes. The class will explain what 3D printing is, the process by which models are created and prepared, and how to locate

various online models to print yourself.

While in class, participants will get to see the Flashforge Dreamer 3D printer in action.

This up close experience of watching something form from nothing is both interesting and fun to watch. If you would like a preview the available items to print please have a look online at [www.thingiverse.com](http://www.thingiverse.com).

*Seating is limited for 3D printing classes.*
