CLARK COUNTY FARM BUREAU

ONE MAN ALONE WILL NOT

1. Be able to dictate farm legislation that is so essential to agriculture.
 2. Be able to secure a more just portion for farmers of the Nation's annual income and correct situation wherein farmers making up 25% of the people of the United States and owning 21% of the wealth, receive less than 10% of the Nation's annual income.
 3. Be able to increase farmers patronage and co-operative business so as to continue to make quality merchandise available at economical prices.
 4. Be able to work effectively for a happier and more prosperous farm life.
-

This is But Part of Your Farm Bureau's Program.

If we want to get
these jobs Done

Let's ^{GO}_{IT} Together
